

OUR SLOGAN: An Industrial Metropolis of Industrious People Who Pull Together.

THE REDCLIFF REVIEW, THURSDAY, NOV. 26, 1925.

Local Retailers Meet and Form An Association

WILL BE KNOWN AS REDCLIFF RETAIL AND BUSINESS MEN'S ASSOCIATION—ELECTS OFFICERS AND DECIDE TO MEET REGULARLY.

A meeting of the merchants and business men of the town was held in the Broadway store last evening to discuss business matters of interest to all concerned.

The meeting was well attended and was one of the most enthusiastic retailers meetings ever held in town at most every business place in town was represented.

After some discussion it was unanimously decided to organize what will be known as the Redcliff Retail and Business Men's Association. The following officers were elected:

President—C. T. Hall.
Vice Pres.—Ed. Cook.
Sec. Treas.—Wilfrid Campeau.

Ex. Com.—Messrs. W. Katta, G. N. Pearson, C. Warner, H. Champ and W. Nussey.

Throughout the discussion a keen interest was shown in the retail business in town and a splendid spirit of co-operation for the future was all concerned, was manifested.

Before the meeting dispersed it was decided to meet regularly. The next meeting will be held next Monday evening when the committee expects to have more definite plans and regulations to submit.

More Fun Than "Charley's Aunt"

Syd Chaplin Has New Comedy Hit in "The Man on the Box"

The Cause theatre will feature a Warner Bros. Classic of the Series when Syd Chaplin, will be shown with one of the most remarkable casts of the season next Monday.

The picture is said to be even funnier than "Charley's Aunt." Syd's last production and one of the biggest box-office hits ever secured, "The Man on the Box," is a sequence of Sydney's impersonations a hilarious male, and various features distinguished with wig and make-up, was quite an attractive picture of the Warner Bros. during the making of the picture.

"The Man on the Box" is an adaptation of the celebrated novel and play A. Sillitoe from the pen of Harold MacGrath. On the stage, Chaplin's role was played by Henry E. Dixey. The story concerns the romantically amusing adventures of Bob Waterton, young, wealthy and charming who hires out as a butler.

Veterans Conference Votes for Union

Now Arranging for Constitution, Name and Officers

The representatives of the various veteran organizations of the Dominion now in session in Winnipeg, voted last night in favor of the unification of the various organizations into a national body.

The vote was 36 to 11, and the conference, called as a national unity conference, proceeded with business as the first national meeting of the new organization.

At sessions today the constitution of a name, the adoption of a constitution and the election of officers will be proceeded with.

SHORT COURSE FOR CREAMERY WORKERS

A three week's creamery course is now being offered jointly by the University and the Department of Agriculture, commencing Thursday morning, December 1st, at 9 o'clock, in Room 138, of the South Laboratory, University of Alberta.

The course is planned for people who have already had some practical experience in creamery work and intend to gain return to it.

U. G. G. WILL NOT BELL ELEVATORS TO POOL

The United Grain Growers Ltd. will not sell the elevator facilities of the company to the pool, as the result of the decision reached at the annual meeting, which was held in Winnipeg last week. The proposal to sell the elevator facilities of the company to the pool was defeated by a overwhelming vote. At the same time the shareholders voted on a resolution under the coordination of the marketing facilities of the three grain growing pools, the Saskatchewan Co-operative Elevator Co. and the United Grain Growers.

Successful Evening by St. Mary's Ladies

Boon Supper and Dance Attracted a Good Crowd

The boon supper and dance given in Cliff hall last Thursday evening by the Ladies of St. Mary's Church, was a great success. From every standpoint. During the supper hour the tables were comfortably filled and the crowd appeared to come in relays making it much easier for the waitresses to give excellent service.

The supper was in keeping with the reputation set by St. Mary's ladies in the past: Everything was of a most wholesome nature and the tables were tastefully decorated for the occasion.

After the supper the hall was cleared and the tables and chairs were of the orchestra struck up and the music was well filled with their feet. The music was all with their feet. The music was all with their feet.

As a result of their venture the ladies had a tidy sum on the right side of their ledger.

Ontario Asks for More Alberta Coal

Alberta Government Trying to Make Arrangements

The Alberta government is being flooded with letters from Ontario asking that Alberta coal be shipped and this winter, to overcome the shortage in anthracite shipments from the United States, the Alberta government in the Pennsylvania fields. Howard Stutchbury, trade commissioner, stated:

In the meantime the provincial government is working quietly in an effort to have further shipments made to Ontario, if all possible.

The time was never opportune to supply all northern Ontario with Alberta coal. However, the arrangements for any trial shipments have been made with the railways of the United States.

The provincial government is working quietly in an effort to have further shipments made to Ontario, if all possible.

The time was never opportune to supply all northern Ontario with Alberta coal. However, the arrangements for any trial shipments have been made with the railways of the United States.

Churches

GORDON MEMORIAL UNITED CHURCH

BOOK LIFE IS THE PREFERENCE OF ALBERTA

HERBERT GREENFIELD RESIGNED LAST MONDAY—BROWN SWORN IN—SOME CHANGES IN THE CABINET BUT NO ADDITION MADE.

At 11 o'clock last Monday morning Herbert Greenfield resigned as premier and Attorney-General. Brown was sworn in as leader of the government by Lieutenant-Governor William Robert.

Following a caucus of the private members of the government, Saturday, events took a rapid turn. Mr. Brown was exceedingly reluctant to accept the premiership under the circumstances but a personal appeal from Greenfield's side and the acceptance of the leadership had its effect and the government agreed to assume the new office.

While the U.G.A. members were in the caucus chamber, the honor Dr. Ebert was summoned and Mr. Greenfield submitted his resignation, recommending that he should be retained as government leader. Within a few minutes the transfer was made and Mr. Brown was sworn in.

Premier Brownfield advised that Hon. George Healey, minister of agriculture, had been appointed provincial secretary, a department for which he was well qualified. Mr. Healey was sworn in last Monday.

Mr. H. J. Brown, provincial secretary, was sworn in as minister of agriculture, a position he has held since the formation of the government in 1921 until last year when he was appointed to the position of provincial secretary.

Mr. Brownfield, however, accepted of accepting the new office which the private members of the government have indicated some weeks that he accept. He has been loyal to Mr. Brownfield, however, he would not accept the position.

Clyde Warner Buys Broadway Dept. Store

Will Continue to do Business in the Old Stand

Clyde Warner, who has been connected with the Broadway Department store here for the past month, announces this week that he has purchased this business from Len Barber and will continue a general mercantile business in the old stand.

Mr. Warner has had a wide and varied experience in the mercantile business and comes to us highly recommended as a business man and a good citizen. Already he has interested himself in all forward movements and we have no doubt he will be an acquisition to the business circles of the town. The Review well wishes Mr. Warner to town and we trust he will not regret coming here.

Secret of Stabilized Population Of The Prairies Is Closely Identified With Tree Planting

Dairy Product Act
Amendments to the Dairy Produce Act
and Regulations
The text of The Dairy Product Act
as amended this year and regulation
under the act have been published by
the department of agriculture at O

relating to agriculture. There is now a new amendment to the act authorizing the governor-in-council to make regulations that will enable the dairy produce grader to refuse to grade any dairy produce and to withhold grade certificates. Sections 24 to 26 inclusive have been added to the previous 23 of the regulations. These provide that any butter cut or moulded in

prints or blocks shall be deemed to be not graded, and that no person shall brand, mark, describe or advertise for sale as graded, butter which shall have been so cut or moulded; that a grader's certificate covering any such lot shall be deemed cancelled; that no person shall pack butter in a packing bearing marks of previous grading; that no person shall sell, offer for sale or have in his possession butter branded, marked, described or adver-

Manufacturing Industry

**Returns From Manufacturing
In Each Province**

Manufacturing establishments in the number of 22,642 were in operation in Canada in 1923, as compared with 22,541 in the previous year, according to a bulletin issued by the bureau of statistics. The gross value of production in 1923 was \$2,781,165,514, an increase over the previous year of 12.27 per cent. This was

divided by provinces as follows:

Prince Edward Island,	\$4,462,821							
Novia Scotia,	\$1,984,848; New Brunswick,	\$70,114,006; Quebec,	\$81,103,396; Ontario,	\$1,451,883,808; Manitoba,	\$97,334,531; Saskatchewan,	\$34,337,811; Alberta,	\$54,837,801; and British Columbia and the Yukon,	\$175,606,993

Ship 4,000,000 Lbs. Butter

QUOTE TIONAL MOVE

total of 17,355,000 bushels in storage as compared with 6,579,000 bushels at the same date last year.

The movement west is speeding up also, as threshing progresses in the western districts, 417 cars having arrived at Vancouver during August and September. This is just 201 cars more than during the same two months last year.

bo successfully grown on the prairies has been thoroughly dissipated by the results attained by the forestry branch of the department of interior during the past 25 years in distributing trees to farmers and others interested in promoting forest growth trees, seedlings and cuttings for planting on their property, either as windbreaks or for ornamental purposes.

An idea of the extent of this work may be gained from the fact that during the past shipping season, which extended from April 14 to May 1, 2,470,000 seedlings, cuttings and transplants were sent out from Indian Head to 3,080 farmers and 2,500,000 were distributed from Sutherland to 3,010 farmers.

LOADING TWO GRAIN CARS A MINUTE IN RECORD CANADIAN NATIONAL MOVE

Sent to Market in This Manner
Writing of the successful pool
turkeys in Saskatchewan last year,
Acting Commissioner Waldron states
that shippers through the live turkey
pool were not as well pleased with re-
sults as were those who shipped the
farm-dressed birds. Mr. A. G. Tay-
lor, in his bulletin on "Turkey and

Their Management," published by the Dominion department of agriculture, advises that whenever possible turkeys should be sent to market dressed. Before killing, the birds should be starved during twentyfour hours and during that time given all the fresh water they will drink, which aids in cleaning the intestines and also improves the flavor of the flesh. Dressed birds, Mr. Taylor adds, should be thoroughly cooled before packing. Care should be taken to arrange them firmly in the packing cases to prevent moving while in transit.

Sweet Clover As A Pasture
Is Unequalled By Most Crops For
Cattle and Hogs

As a pasture sweet clover has a carrying capacity unequalled by most crops. Cattle have been pastured on this crop at the Brandon experimental farm with no apparent ill effects. In

condition of the animals was in no way affected and the milk supply was maintained. According to a new bulletin on sweet clover distributed by

agriculture, Ottawa, this crop makes a very soft feed when used alone and it is advisable to give the animals access to some form of dry roughage. In

rank and coarse it should be kept well pastured down. It withstands the effect of pasturing very well and it is possible to use even the first year's

crop. Logs may be turned on when the plants are 3 or 3 inches high, with good results.

Albert was represented by Hon. Geo. Hoadley, minister of agriculture, and J. H. Hare, poultry commissioner, at the meeting held in Toronto to consider plans for the exhibition.

tion of provincial committees to co-operate with the central committee to make the conference a success.

plan was given support.

GREENFIELD RETIRES

THE resignation of Herbert Greenfield as premier of this province is of more than passing interest, just what effect it will have upon the future of the Progressive party, is the subject of much speculation and much difference of opinion.

Those who knew Mr. Greenfield personally or had met him in any business way in connection with the affairs of his government, were very much impressed with his apparent sincerity and his desire to do the right thing.

While it has been said of him that he was slow to act and indecisive in matters which called for immediate action, yet many of those who know him best feel that his shortcomings in these matters were more the lack of political experience and the desire to do the right thing than any attempt on his part to shirk his responsibilities.

For this reason he made himself very popular among the rank and file outside of the members on his side of the legislative assembly.

Besides this he is a farmer and had the happy faculty of meeting farmers on a comor footing to discuss with them their problems in an intelligent manner and without embarrassment either to himself or them. Then again many of the old friends are of the opinion that the forcing of Mr. Greenfield's resignation at this time is but a political move to make him the goat for whatever shortcomings the party may have had since assuming office, and it is looked upon as "the lamb being led to the slaughter."

When Mr. Greenfield was called from the plow in 1921 to become premier of this province and lead a party made up of men, many of whom were anxious and ready to change our constitution over to him, and many of whom had fantastic ideas for the improvement of provincial conditions, he assumed an office which required almost superhuman skill if he ever expected to weld his followers into one harmonious whole. He never did it, and no man could have done it under the circumstances. It was a hopeless task. That he tried, and tried hard, none will deny. He was a Britisher and would go so far and no farther. It is for these and other reasons we are prompted to remark that the change coming at this particular time may have far reaching effects upon the future of the Progressive party.

THE HURON RECOUNT

DOWN in North Huron, Ont., a Progressive candidate has been defeated by Judge Lewis, who conducted the recount. The reason given by the Judge for the defeat of the Progressive candidate is that a number of ballots deposited in the ballot box still had the counterfoil on them. Most of those ballots were marked for the Progressive candidate. But the law says that the counterfoil must be removed by the deputy returning officer before the ballot is deposited in the ballot box. As a result of the finding of

Judge Lewis in throwing out these ballots, some party papers are trying to make out that the electors of North Huron are being deprived of their franchise because of the carelessness of the deputy returning officer. Instead of pursuing their criticism along this line these papers would be more in order if they would criticize and condemn the old party system of appointing election officials merely because they are party henchmen, without regard for their ability and experience in performing the duties of their office.

There is no excuse for a deputy returning officer falling down now-a-days in the discharge of his duties. His instructions are plain and simple. If he has the capacity to interpret these instructions, the trouble is that too many of them do not read and study these instructions, but instead, they trust their party pull to see them through.

There is no use of the defeated candidate in North Huron crying over spilled milk. Election laws, like other laws, are made to be lived up to. The same thing happened in Calgary four years ago when R. B. Bennett was defeated because a number of his supporters marked their ballots with a four instead of with a pencil as prescribed by law. On the occasion R. B. Bennett, being lawyer and a good sport, took his defeat like a man. The result was that in the last election 't. B. voted of losing out by a few votes, won out by several thousand votes.

The final result in West Calgary shows that it pays to play the game. Let the defeated candidate in North Huron take a lesson from the way we do business here, in what is so often referred to by Eastern slicks as the ungodly and unsophisticated West.

A Conservative and a Progressive, both members elected to the recent dominion election, have placed resolutions on an extended program of rural credit, favoring an extension of the principle of land banks of the United States, which system was recommended by Dr. T. D. in his report to the government at the last session. Owing to the present complexion of the house the result will be watched with interest.

Progressive members-elect appear to be losing no time in taking advantage of the position which they will hold in the coming session of the federal parliament. Already they have passed two motions on the order paper; one calling for an early completion of the Hudson's Bay railway and the other for an extended program of rural credit. It will be interesting to see how the several parties line up on these two motions.

THE PHILOSOPHER'S NOTES

The one thing in the world of value is the active soul.

It is better to risk and lose than to let the moment slip by one by one into the dead past.

The soul active, sees truth and utters truth.

Character is higher than intellect. Thinking is the function, living the philosophy.

If you have trouble you will see happiness.

The Poetry of a people is likewise its Philosophy. — Emerson

There is a continuous wisdom breathed with health, and truth breathed with cheerfulness.

AN OUNCE OF PREVENTION

By Dr. C. M. Bines, Medical Director,
Canadian National Committee
for Mental Hygiene.

All over the world a new type of hospital is being built—the psychopathic hospital, where people who have mental troubles are studied and treated. A veritable science of the mind is being developed, and it is now possible to study and successfully treat the mind. A veritable science of the mind is being developed, and it is now possible to study and successfully treat the mind.

The best time to prevent trouble is in the early years of life. The best time to prevent trouble is in the early years of life. The best time to prevent trouble is in the early years of life. The best time to prevent trouble is in the early years of life.

COMMUNICATION

(Continued from front page.)

The interest of well-to-do men and women in the government of Canada in this situation has been presented by Sir Clifford Sifton in a speech delivered at Brampton, Ontario. "A great of financiers and capitalists are interested in the course of the government about a certain condition of affairs in Canada. It is very interesting to them that these capitalists have been so interested in the government of Canada. It is very interesting to them that these capitalists have been so interested in the government of Canada.

That party politics and control of the government is the present state of public opinion, must be admitted. Nevertheless it seems that actual experience should have by now sufficiently demonstrated the necessity of the political parties democratic movements.

They serve the interests that survive the common fund and no other. Their record clearly shows.

There is no doubt that the coming time will be able to carry on

the government. Much is made out of the fact that both stand committed to a policy of tariff reduction. But seeing the fact that they stand in need of almost unanimous support from the Progressives, it is very doubtful that they will succeed in their endeavor to carry out their policy. Mr. Meighan and the Conservatives may be also trying their luck. By mobilizing of policy or other documents he may stand even a better chance of success than the five members in order to be able to carry on.

However, the surest method by which to avoid an election would be the Liberals and the Conservatives to fraternize and form a coalition

government. After all they have more in common than any of the rest. The only objection that can be advanced by the parties, is that it would have a tendency to eliminate them from politics, through which the people so far have been so successfully deluded and divided. Nevertheless it is only a matter of time until it will have to be done anyway. Therefore they must now.

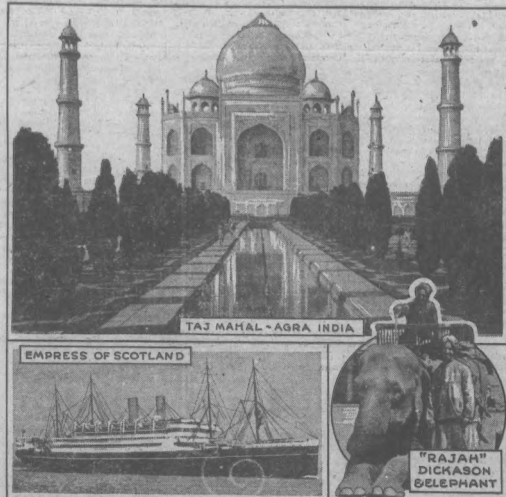

There is also a great deal said about the statement made by Mr. H. W. Wood recently. "That the U. P. members were free to make a statement in the interest of beneficent and constructive legislation." The interpretation placed on the statement by

several editors seems to be that it is a statement of opinion. It is absolutely proper for the Progressives or U. P. members to co-operate. But to place a statement in the hands of a Liberal or a Conservative government to carry on, in view of the interests they own, would be equal to commit voluntary suicide.

In the event of an election the only logical thing for farmers and workers as well as all other progressive citizens is to get together and nominate and elect some outstanding progressive members. There are enough of us yet to do it. If we but try.

CARL AXELSON.

"Don't You Hear The East A-calling?"

The Imperial East has from the beginning of time exercised its fascination on the West. Color, mystery, strange creeds and strange races; the cradle of civilizations with mighty monuments of the past to attest their reality; customs that are so old that they seem new; costumes that look as though their wearers had stepped out of some antiquated, and even so costumes at all times in the land speaking strange languages; the whole making up into a picture that, no alluring, so utterly different, so incomprehensible to the Westerner that it seems as if he had been transported into another planet where only the stars, the sun, moon and sky remind him that he is still standing on mother earth. Add to all this the fact that the North Temperate Zone of America is left thousands of miles behind you and you step into the land of eternal summer, where you have the widest range of emotional and climatic change that this world has to offer.

The shading of every-day usage and spectacle is provided by the "Round the World Cruise" on the Canadian Pacific liner Empress of Scotland which sails from New York, December 3rd next. For the following 128 days there is a never ending and shifting panorama of utterly new things presented to the passenger on this cruise. What or she has been only read of in books and seen in illustrations un-

rolls itself before the astonished eye. Thoroughly competent guides tell of the wonders of each place visited and conduct to every point of interest. There is no let-up in the continually changing novelties presented and the passenger stores up in the short period of four months enough memories to last a life time.

Some few of these are presented in the above illustration. The good ship Empress of Scotland is shown as she is just starting her long voyage. Then comes that jewel in stone—the Taj Mahal,—bathed in sunlight, the concrete proof of a mighty monument and of a civilization that has passed, yet intact today as when it was first completed hundreds of years ago. Yet another scene is the bazaar of a small Indian city where the elephant that typifies India is seen kneeling to receive his master who is attired as a Rajah.

These are but a few new lights in a voyage that is crammed with new delights each day. If you were to undertake your own long voyage it would cost thousands of dollars and it is not at all likely that he could take in all that is offered on the Empress of Scotland in double the time. Further, he would certainly lose the atmosphere of luxury, efficiency and homelike which are the special characteristics of a voyage taken in common with men and women of his own class and outlook on life.

Interesting Local Items

An exchange says "love makes the world go round, when it should be asleep."

Mrs. A. R. Ballantyne who has been confined to her bed for the past week suffering from pneumonia, is now gradually improving.

Rumors is taking pains to have the C. P. R. irrigation system run through the town to supply water for garden trees, etc. It is a good idea.

W. C. Smith, M.L.A. for this constituency, attended the annual meeting of the Grain Growers Co. in Winnipeg last week.

John Cousine, who started the first Canadian Club in Canada, died this week. He was a brother of Wm. Cousine of Medicine Hat.

St. Ambrose W. A. will hold a sale of home cooking and needlework on Thursday, Dec. 1st. Useful and fancy articles suitable for Christmas will also be on sale.

Mrs. A. E. Twister, Eddie and Beatrice returned to Redcliff last week end to visit Joe, who is now located there. They found Joe in his usual good health and report a pleasant trip.

The Dominion Greenhouse here is now making daily shipments of cactus to the larger centres and to local merchants. Mr. Manfield expects a good crop for the Christmas season.

While out doing early Christmas shopping Bill Yates met George Abbott, when the following conversation took place: "George—Where are you going, Bill?" "Bill—To the store for something for my girl." "George—How much do you want for her?"

The Deacons, Brooks and Bow Slope districts are holding a corporate turkey kill again this year. In this they are being assisted by the Provincial Egg and Poultry Service local representatives and the Irrigation Dept. of the C.P.R.

Queen Alexander, widow of the late King Edward and mother of the present King died last Friday. King George and Queen Mary were here beside when death came. Queen Alexander was in her 84th year. The funeral will be out of almost simplicity.

While playing on a teeter last Tuesday, the youngest son of Mr. and Mrs. P. O. McLean, fell off the board and broke his arm. After being attended to by Dr. Patterson, James was taken to Medicine Hat where the X-ray was applied and the bone set. He is now progressing favorably.

His friends in Redcliff were grieved to learn that Mike Gilday was one of the unfortunate victims of the mining accident at Kirkpatrick mine near Drumheller last week. Gilday worked at the Alex mine last winter and was popular among the men. The bodies of the three men still missing in the mine have not yet been recovered.

A meeting of all interested in the local football club is called for Friday evening of this week. The meeting will be held in the G.W.V.A. club rooms. All players are requested to turn in their uniforms either before or at this meeting. A full attendance is urgently requested as matters of importance will be discussed.

Nurse Twilley of Medicine Hat met with a painful accident last week end while nursing Mrs. A. R. Ballantyne of this town. During the night the nurse got up to attend her patient and as she stepped over the railing, she fell to the floor. In falling she struck a chair and broke her nose. She was taken to the Medicine Hat hospital.

Cent Axelson of the Bingleville district, started out this week to hold a series of meetings throughout the province under the auspices of the branches of the U. of A. This is part of the program instituted last year by a section of the province. He expects to cover this section later on.

The committee selected to canvass for financial assistance to help a family in distress in town which has lately passed through bereavement, reports that \$84.60 was collected. These funds have also been collected to the advantage by the committee. The committee is deserving of great praise for the manner in which they have attended to this matter.

The Ladies Aid of Gordon Memorial United Church, will hold a sale of work and home cooking on Saturday, December 1st. There will also be a second meat sale. The dinner will be served from 3 to 6:30 o'clock. This will be a good opportunity to get Xmas presents. The Review regrets that through an oversight we omitted to print this notice last week.

Here's a good one. Last Sunday week instead of having the usual service in Gordon Memorial church the pastor gave an address illustrated with lantern slides. Of course the church was in darkness for the lantern slides and when members from another church were passing, the congregation was singing "There out the Life Line," one of the hymns brought to the service. When the Scotch presbyterian, who they sing the hymns, they turn out the lights to save gas."

It will be good news to know that the plant which will continue operations for a week longer than the date announced last week.

C. T. Hall is preparing for winter by having a fine porch put over the entrance to the Drug store and post office.

Our readers are reminded that Nurse Patterson will still continue her hospital here and will be prepared to attend to all cases.

Dr. Patterson announces that after next Tuesday his office hours in Redcliff will be from 5 to 7 o'clock p.m. daily. Ordinary calls will also be made at this time. Messages left with Nurse Patterson through the day will be attended to and the doctor will also communicate with the doctor for emergency calls at any time.

SAYS CANADA SHOULD PRODUCE OWN MUTTON

John B. Cramdie, President of the Meat Council of Australia, who is making a study of the world meat situation, stated in Edmonton recently that some of the sheep he had seen in Canada were quite as good as the best produced in New Zealand and Australia. He concluded that this country should produce all the mutton required for the home market and should have a big surplus for the United States.

SUGAR BEETS MAKE A GOOD YIELD

Almost one hundred per cent. of the beet crop in the sugar beet areas of Southern Alberta were harvested before being damaged by the severe cold weather, and the new factory is having a very satisfactory run. The yield of beets has been very rich, reaching in some cases 18 tons to the acre, and the percentage of sugar is satisfactory, although lowered somewhat by unfavorable weather conditions.

Ready to Roll the World's Grain Caravan

To the average person a railroad shop is perhaps the most uninteresting institution one could possibly think of. It suggests to one's mind everything that is cold and inanimate—dry—grimy. Even the scene surrounding these so-called penitentiaries is forbidding, like a prison wall.

But during the great Canadian grain rush from West to East there are few places in the West more interesting than the Weston Shops of the Canadian Pacific Railway, at Winnipeg, where 600 cars a day are matched in off the main line, repaired and shot out the next day to resume their place in the big rolling movement of the world's grain caravan.

This institution, quietly situated on the western outskirts of Winnipeg, ranks among the big industrial organizations of the West. It employs eighteen hundred men the year round, and has a monthly payroll of \$230,000. Weston Shops, which last year repaired 39,518 cars, 200 coaches and 484 engines—and manufactured a million and a half dollars' worth of material—gives one the impression of being a big, self-contained corporation, instead of a mere part of a big railroad system.

Under Works Manager H. B. Brown, there are six main divisions.

here who have held their jobs for more than ten years, and there are another 100 men who have been in the service for twenty years and more.

Weston Shops cover 23 acres of land, fenced in and guarded at each entrance by an attendant. Inside the fence is a separate railroad yard containing 40 miles of track. One thousand cars are being shifted about continuously by three shift engines. Every day in the week from 400 to 600 cars are repaired and shipped out of its gates into the regular yards.

These shops use up \$300,000 worth of material annually and they burn 150 tons of coal each day. All Western Canadian coal.

One of the most interesting parts of this institution is an apprentice school, where 140 boys attend school in the company's line, receiving regular wages. They are learning the technical side of railroading. They study arithmetic, geometrical and trigonometry, and enter regularly into the practical side of shop life.

A unique part of the shops is a section where all the scrap iron and metal waste from Port William in Calgary is gathered and shipped in to be re-melted into iron castings. The company saves \$35,000 a year from this reclaimed metal. From these castable wastages the shops manufacture

facture all bolts and iron casting parts for the entire western lines of the company. Each month 100,000 tons of cast iron is manufactured here.

It is interesting to go through these shops and see some of the biggest engines in the service being stripped right down to their wheels and completely rebuilt. An engine can be rebuilt here in about eighteen days.

There is an engine that went into the rock-slides in the Rockies three months ago, says the foreman. All one can see of this engine is its frame, just stood bare on wheels. It is being re-made, boiler and everything.

Passenger and freight car wheels the western lines are also made here. The wheels must be ground while both wheels are on axle, and both must be made exact in size within a hundredth of an inch. For it, as the foreman explains, what is an eighth of an inch larger than the one on the other side of the axle, that larger wheel will want to travel an eighth of an inch farther every time the other one turns over, thus wearing down the flange and spoiling the track—and causing danger to the entire train. Annually, 16,000 pairs of new wheels are made here.

And on these wheels roll the world's grain caravan.
